Janitor Global Intelligence Report

Cross-repository structural debt aggregation. Generated by The Janitor: Deterministic Structural Analysis.

Gauntlet root: `/home/ghrammr/dev/gauntlet`

Workslop: Maintainer Impact

Workslop: the triage tax senior engineers pay reviewing AI-generated low-quality PRs.

Metric	Value
Actionable intercepts (Blocked / Zombie / Hallucination)	**134**
Total engineering time reclaimed	**26.8 hours**
Estimated operational savings	**$2680**

Based on **12-minute industry triage baseline** × **$100/hr** loaded engineering cost. Source: Workslop research.

Global Summary

Metric	Value
Repositories analyzed	2
Total PRs analyzed	5480
Total slop score blocked	277250
Total antipatterns detected	1333
